Nine Easy Steps to Creating Dynamic Forms With Adobe LiveCycle Designer 8

Dynamic forms are some of the most powerful applications you can create using Adobe LiveCycle Designer, which ships with Adobe Acrobat Professional.

Unfortunately, the changing, live nature of dynamic forms can make them confusing to create. In this one-hour, live, online classes you will learn a system that will take the guesswork out of building dynamic forms.

Go beyond simple instructions. Learn expert form building techniques that will make your next project easier to implement and your existing forms simpler to update.

Take some of the stress out of your work life. Register today.

- For beginning to intermediate form designers.
- Covers LiveCycle Designer 8 (ships with Adobe Acrobat 8 Professional Windows).
- Uses the Adobe Acrobat Connect real-time conferencing software inside Adobe Reader/Acrobat 8.
- Pricing is per connection, not per student. One connection means one internet and one telephone hookup with the instructor. An organization may share a connection in a meeting room.

Eliminate travel costs and only pay for the training you need with live, online training with PDF Conference Producer and Adobe Certified Expert Carl Young.

Train at your desktop, or share the web connection with others in your organization in a conference room at no extra charge.

Pricing:

- \$75 per connection per class, or
- \$200 per connection for three or more classes (\$25 savings)

Course Outline on Page 2

- Priced per connection
- Train at your desk
- Share a connection in a conference room at no extra charge
- Workbook and sample files
- High-quality, two-way voice delivered via a telephone conference call
- Screen sharing
- Also available as private training on your schedule
